"Twilight Fantasy" - A Gift of Time, Space and Light -

The concept of this year's illuminations is "A Gift of Time, Space and Light." We want to give visitors an experience where the entire Toki-no-hiroba Plaza is like a present.

The domed roof will be utilized so that we can create a row of three hanging decorations which will be ornamented with a red ribbon motif. The plaza will be adorned with gold illuminations to create a gorgeous, refined and heart-warming ambience.

We want to offer visitors "new discoveries and inspirations" and the chance to enjoy a romantic and charming experience that can only be had at Osaka Station City, one that they will want to share with the people they love.

■ Night sky ribbon veil

Three veils with a maximum height of approximately 16 m and width of approximately 20 m will be hung from the domed roof. They will have brilliant gold LED lights and be decorated with a red ribbon motif to represent huge presents.

The design of the center veil will be changed during the Christmas and Valentine's Day periods to boost the seasonal appeal of the event. This is the first time that this has been attempted since our opening.
